**NEW MIGHTY
MINI TOOLS**

G·PLUS

ROTARY MINI POLISHER.

G·PLUS

DUAL ACTION MINI POLISHER.

G·PLUS

DENIBBER TOOL.

FEATURES & BENEFITS

LIGHTWEIGHT

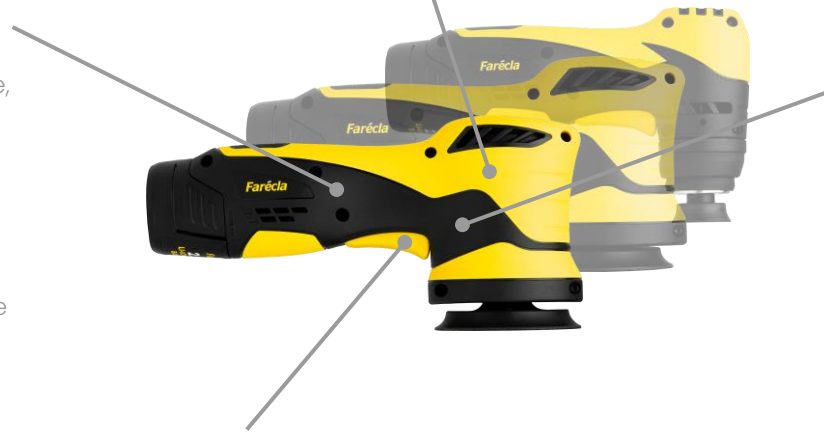

REDUCED HAND AND ARM FATIGUE – INCREASED CONTROL

- Ease of handling makes it more comfortable to hold and manoeuvre, especially during long polishing sessions
- Precision – better control allows for more accurate detailing on small or delicate surfaces
- Reduced strain on your hands and arms, which is ideal for extended use
- Portability– Easy to carry around, making it great for mobile work or moving between job sites

RUBBERISED HANDLE

COMFORT – CONTROL – SAFETY

- Non-slip surface, making it easier to hold the tool securely
- The rubber absorbs some of the vibrations generated during use
- Rubber handles are soft and comfortable to hold
- A more secure and comfortable grip helps improve precision and control while polishing delicate surfaces
- Rubber acts as a barrier between your hand and the heat generated by the tool's motor

VARIABLE SPEED

CONTROL – PRECISION – SMOOTH OPERATION

- Lets you start slow and ramp up gradually, providing better control when manoeuvring around edges, contours, and trims
- Reduces risk of generating too much heat on the surface.
- Smoother product application
- More user-friendly – It's easier to polish when you can gradually adjust speed

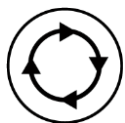

HIGH BUILD QUALITY

DURABLE – RELIABLE

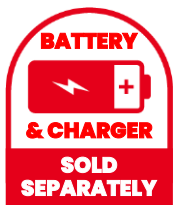

- Constructed with durable, high-grade materials
- Compact, ergonomic design ensures excellent control and comfort
- The robust motor provides consistent power
- Smooth trigger action
- Ideal for professional, high-precision polishing tasks, reliable performance even in demanding environments

G Plus Rotary Mini Polisher

G·PLUS ROTARY MINI POLISHER.

**ROTARY
ACTION**

High torque, rotary machine action

10.8V Li-ion battery (sold separately)

Variable speed (700 – 2500rpm)

Backing plate size = Ø74mm (3")

Lightweight (0.72 kg bare machine)

Ergonomic, slim body with rubberised handle

Product codes: **GPT020** (SGA 662544**27052**)

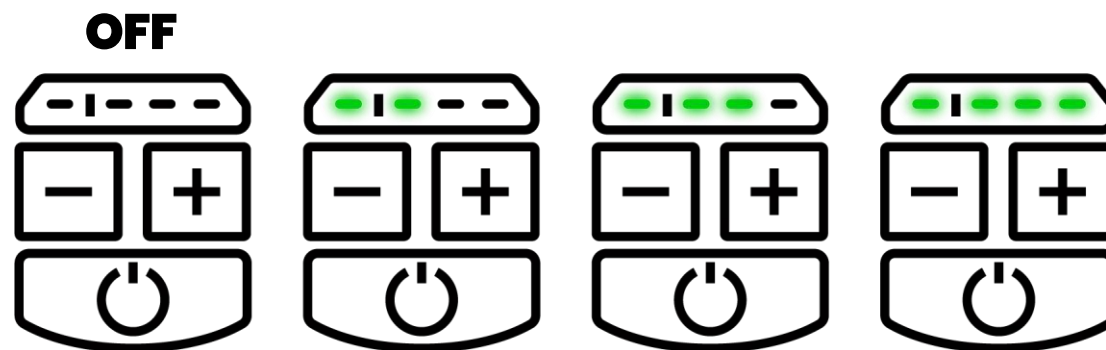

Pack size: **1**

Carton quantity: **4**

BOX CONTENTS:

- G Plus Rotary Mini Polisher (tool only)
- G Mop 75 mm Premium Compounding Foam
- Hex key (for changing the back plate)
- Manual

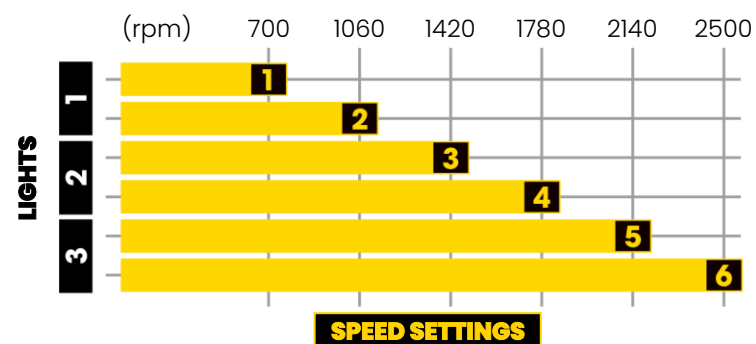

SPEED SETTINGS

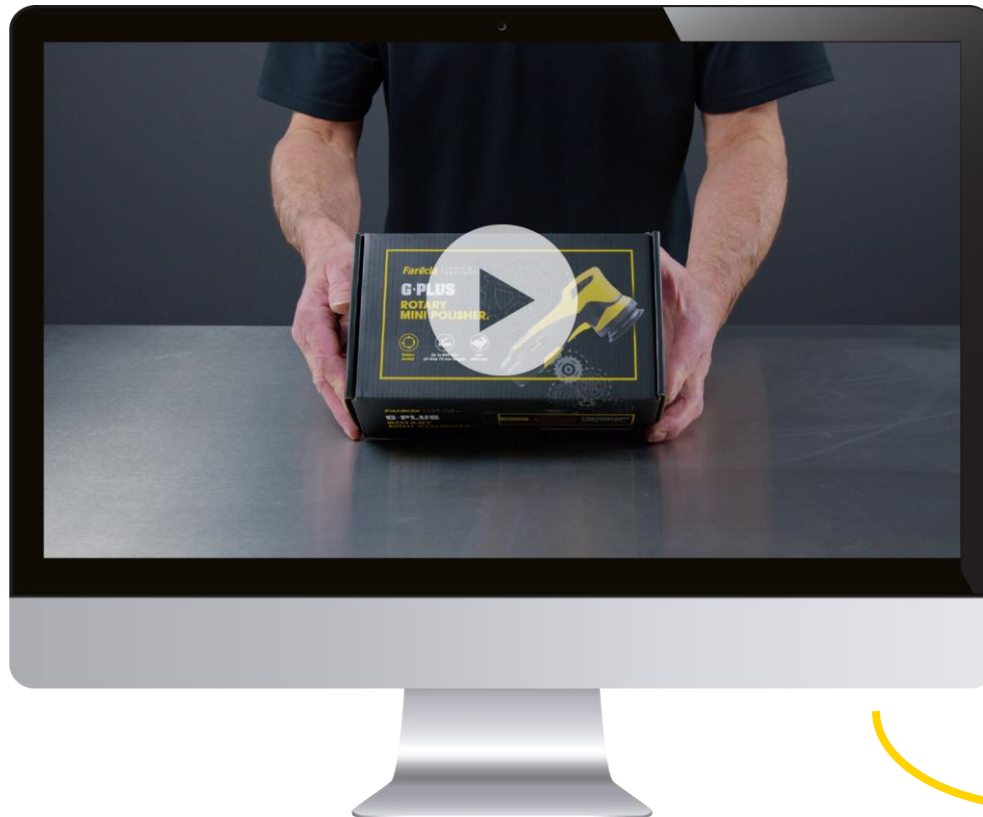

ONE LIGHT = SPEED SETTINGS 1 AND 2

THREE LIGHTS = SPEED SETTINGS 5 AND 6

BRAND ASSETS

Farecla TOOLS & EQUIPMENT

G-PLUS ROTARY MINI POLISHER.

PRODUCT DESCRIPTION

The G-Plus Rotary Mini Polisher has been developed to Farecla's own specification as the ultimate precision tool for fine sanding and small-area correction work. This compact model delivers exceptional performance where space and accuracy matter most.

Perfect for automotive and industrial applications, the mini polisher features a 16mm (2") backing plate compatible with the G-Map (2") backing plate - making it a versatile, high-performance addition to any polisher's kit.

PRODUCT INFORMATION		
PRODUCTS	CODE	QTY.
G-Plus Rotary Mini Polisher (incl. pad)	GPT020	1
ACCESSORIES		
G-Plus Rechargeable Battery	GPT125	1
G-Plus Mini Battery Charger	GPT126	1

SUPPLIED WITH A FREE G-MOP PAD

Durable, 3-in-1 pad with an open-cell structure. Gives fast cutting action and leaves a high gloss finish.

KEY BENEFITS

HIGH TORQUE	Ensures consistent polishing speed
VARIABLE SPEED	Speed ranges from 700 to 2600rpm, providing control for different applications and polishing needs
LIGHTWEIGHT	Reduces fatigue when working for long periods
ERGONOMIC BODY	Subtitled handle and comfortable for extended use
BRUSHLESS MOTOR	Delivers durability, efficiency and minimal maintenance

G-PLUS
DUAL ACTION
MINI POLISHER.

PRODUCT DESCRIPTION

The G-Plus Dual Action Mini Polisher has been developed to Farecla's own specification for precision polishing, ensuring powerful performance with user-friendly ergonomics. Designed for spot repair and fine sanding, the compact DA polisher delivers swift, professional results in areas large machines can't reach or where only small areas need attention.

Whether you're tackling spot polishing, scratch removal, or delicate correction work, the mini DA polisher delivers power, precision, and portability in one compact package.

G Plus Denibber Tool

Farecla TOOLS & EQUIPMENT

G-PLUS
DENIBBER
TOOL.

PRODUCT DESCRIPTION

The G-Plus Denibber Tool is purpose-built for precision surface correction in automotive and industrial applications – all without the hassle of cords. Compact, lightweight and engineered for control, this specialist tool enables rapid, refined defect removal in hard-to-reach areas.

With a 3mm orbit and variable speed control (4000–10000 RPM), it delivers exceptional consistency and finish. Whether you're tracking minor nicks or working to refine finisher prep-work, the denibber ensures professional-grade results with minimal rework required.

Designed around a powerful 10.8V lithium motor, it offers excellent durability and reduced maintenance, while the slim ergonomic body and textured grip allow for prolonged, comfortable use – even in demanding environments.
